

# PRISMA+ Colloquium

Nov. 23, 2022 at 1 p.m.  
Lorentz-Raum, 05-127, Staudingerweg 7

Francesca Carlin  
Berlin (Please note: Event will take 2 hours)

## **Fostering equal opportunities in selection processes**

Evaluations and selections determine scientific careers possibly like no other factor. Knowing that they are also susceptible to bias and preconceptions, how can we ensure a fair recruitment process and assure to pick the best candidate? Together, we want to reflect how we hold discussions in selection committees (on all career levels!) and learn what practices prove helpful in guaranteeing more equitable opportunities for all applicants.
